James G. Lindley, Project Director, announced today thef Jirst Schedule of the mess hall and block closing program.

Since the relocation program has been established 4481 persons have departed this center to re-establish themselves innormal communities. Since sanuary 1, 1945 882 persons have departed on terminal leave. This greatly accelerated movement has left many vacancies throughout the center -indley said.

During recent months the proclems of maintenance and water supply have become increasingly difficult. Current restrictions on the purchase of plumbing, electrical and referigeration parts have made our situation hard to meet.

It has, therefore, been determined that onmay 21, the mess hall in Block 7K will no longer operate. Residents of this Block may continue to reside there until actual closing but will have their meals served in Blocks 7n and 8k. If the remaining residents of Block 7k have no immediate relocation plans they are encouraged to move now, into any one of the following Blocks where a number of vacancies exist.

6E 6F 6G 6H 7E 7F 7G 7H 8E 88F 8G

These Blocks are to be known as the "open area".

It is contemplated that these Blocks will remain open and in operation for the longest period of time taking into consideration the remaining life of the Center, which is drawingto a close.

Under date of June 11 Block 7K will be closed for residence purposes and all persons remaining in the block at that time will move to any of the Blocks in the open area designated above. Residents of 7K are requested not to move into any other Blocks except those designated as "open area" named above inasmuch as other Blocks will sooner or later appear on a closing schedule. Residents of 7K are asked to inquire at the Housing Office through Mr. Terborg. at the Welafare Office for information concerning vacancies.

Under date of June 4 the mess hall in Block 9L will close. Residents of 9L will take meals in 8K and 9K unless they desire to move into the open area mentioned above. The Block may be used for residence up to June 25 at which time the Block will be entirely closed and all remaining persons residing within the Block will be requested to move into a vacancy in the open area.

Lindley commented that the next order for closing mess halls and Blocks will appear among the 8K - 9K 0 11K - 12E - 12F 0 12H E/1 12K Blocks.

BLOCK MANAGERS! REAPPOINTMENTS

A large percentage of the Block Managers have been serving their respective blocks, and the center, for 18 months. In a recent meeting of the Block Managers' Assembly, the suggestion was made to the Administration that it consider submitting to the people of the respective blocks the question as to whether or not the present Block Manager should be continued in office. It was further suggested that a vote of confidence be asked for from the people of each block concerning their respective Block Manager. This move was made in view of the long service which the Block Managers have given to the center and their respective blocks together with the fact that recently one thousand new people came into our center and the block population has generally changed by indefinite leaves and movements from block to block.

The Administration appreciates very highly the service rendered to the center and to the blocks by the Block Managers. It is also the feeling of the Administration that serious and important problems lie shead of all of us and it will be necessary to have the full cooperation of all the blocks if our center is to make the progress which it might make. The suggestion made by the Block Managers is acceptable to the Administration and the following procedure is outlined to accomplish the purposes of the suggestion made.

- (1) Each block is requested to call a meeting of all persons 18 years of age and older on or before Wednesday, March 1, 1944. This meeting will be presided over by three persons from the block. These three persons shall be the representative of the block, and the barrack monitors from barracks one and seven, respectively. In those blocks where the barrack-monitor system is not in operation, two members of the Block Manager's Advisory Committee shall serve on the committee in place of the two barrack monitors.
- (2) At the meeting to be held before March 1, there shall be a vote taken from all eligible voters as to their confidence in the Block Manager. If 75 per cent of the voters present vote confidence in the present Block Manager, a certification to this effect will be made by the committee and presented to Mr. Lindley. If

over 25 per cent of the eligible voters vote no confidence, the committee shall then ask for nominations to be made from the floor for a Block Manager to serve for the next twelve months. Nominations may be made from the eligible voters. The old block manager may be nominated. At least two candidates must be nominated. Each voter may vote for two candidates. When two nominees have each received over fifty per cent of the votes, the committee shall declare the nomination closed, provided, the nominees accept candidacy, and shall present their names to the residents. The same committee shall prepare the ballots and all eligible voters of the block shall cast their vote sometime on or before March 1 and the result recorded for each should be reported to Mr. Lindley for his consideration for appointment.
